

## Company

### Philosophy

Venneri Consulting Engineers bring life to buildings by creating healthy, safe, convenient and comfortable environments for the people in them.

We aim for excellence in our work and make the individual needs of our clients a priority. We pride ourselves on our ability to think through any engineering challenge to find the most effective and economical solution.

Sustainable design and energy efficiency are our key business practices. Wherever possible we implement green building techniques in our projects and are proud members of the Canadian Green Building Council .

### History

Frank Venneri opened his Toronto office in 1984. In over its 20 years of operation, the company has grown into a dynamic and successful business with a solid team of experienced engineers and a reputation for excellence. This excellence extends to every dimension of Venneri, including the engineering of the buildings, the dedicated staff and the technology employed. The company's commitment to quality as well as honouring schedules and budgets are a source of pride. Steady growth and long history of satisfied customers are proof of its success.

As a company, Venneri is distinct in that it boasts the success and skill of a large firm while maintaining its warmth and accessibility. A diverse team of professional engineers and technologists bring a wide range of backgrounds and skills to each project, as well as a consistent standard of skill and commitment. Venneri's clients know to expect honesty, collaboration, first-rate workmanship, and pride in every project.
